

Puerto Rico

Families Served Through Evidence-Based Home Visiting in 2019

Models implemented in Puerto Rico included Early Head Start Home-Based Option and Healthy Families America. Across the territory, 19 local agencies operated at least one of these models.

2,144

home visits provided

194

families served

163

children served

Race

Ethnicity

Caregiver education

Child age

Child insurance status

Primary language

Puerto Rico

Potential Beneficiaries in 2019

Information on potential beneficiaries was not available for Puerto Rico in 2019.

Notes • NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: EHS and HFA. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Public insurance includes Medicaid, CHIP, and TRICARE. • EHS data may be underreported. Data include EHS programs that provided home-based services only. EHS race, ethnicity, and primary language data include children and pregnant caregivers. EHS did not report home visits or families served. The number of children served was included as a proxy for families served. • HFA reported primary language of caregivers.

The NHVRC is led by James Bell Associates in partnership with the Urban Institute. Support is provided by the Heising-Simons Foundation and the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For details about the methodology, see the *2020 Home Visiting Yearbook*.
