NHVRC STATE PROFILES

Georgia

Families Served Through Evidence-Based Home Visiting in 2020

Models implemented in Georgia included Early Head Start Home-Based Option, Healthy Families America, Nurse-Family Partnership, Parents as Teachers, and SafeCare Augmented. Statewide, 39 local agencies operated at least one of these models.

Georgia

Potential Beneficiaries in 2020

In Georgia, there were 594,100 pregnant women and families with children under 6 years old not yet in kindergarten who could benefit from home visiting. These families included 765,000 children.

765,000 Of the 765,000 children who could benefit-Preschoolers Infants Toddlers children < 1 year 1-2 years 3-5 years 383.700 258.000 123.400 could benefit from 34% 16% 50% home visiting Many home visiting services are geared toward particular subpopulations. The 594,100 NHVRC estimated the percentage of families who could benefit in Georgia families who met the following priority criteria: 19% Child < 1 could benefit from Single mother 27% home visiting Parent with no high school diploma — 8% Pregnant woman or mother < 21 - 3% Low income 25% Of the 594,100 families who could benefit-53% of families met 🔵 🔵 🔵 one or more priority criteria -----21% of families met 🛢 🔵 🔵 🌑 two or more priority criteria

NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: HFA, NFP, PAT, and SafeCare Augmented. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women. • HFA reported primary language of caregivers. • NFP reported primary language of caregivers. • PAT data for child insurance status and primary language were not included. • SafeCare Augmented reported language of service delivery. SafeCare Augmented did not report children served, home visits, caregiver education, child age, or child insurance status. The number of families served was included as a proxy for children served.

The NHVRC is led by James Bell Associates in partnership with the Urban Institute. Support is provided by the Heising-Simons Foundation and the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For details about the methodology, see the 2021 Home Visiting Yearbook.
