## Families Served Through Evidence-Based Home Visiting in 2020

Models implemented in Puerto Rico included Early Head Start Home-Based Option and Healthy Families America. Across the territory, 19 local agencies operated at least one of these models.

**2,529**

home visits provided  
*including 1,359 virtual visits*

**194**

families served

**167**

children served

### Race

### Ethnicity

Hispanic or Latino

### Caregiver education

No high school diploma

### Primary language

### Child insurance status

### Child age

# Puerto Rico

## Potential Beneficiaries in 2020

Information on potential beneficiaries was not available for Puerto Rico in 2020.

NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: EHS and HFA. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • Public insurance includes Medicaid, CHIP, and TRICARE. • EHS did not require reporting on 2020 data due to the COVID-19 pandemic. The number of children served in 2019 was included as a proxy for children and families served in 2020. • HFA reported primary language of caregivers.

The NHVRC is led by James Bell Associates in partnership with the Urban Institute. Support is provided by the Heising-Simons Foundation and the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For details about the methodology, see the *2021 Home Visiting Yearbook*.
