

Illinois

Families Served Through the Maternal, Infant, and Early Childhood Home Visiting Program in 2021

Evidence-based models implemented with MIECHV funds in Illinois included Healthy Families America and Parents as Teachers. Statewide, MIECHV funded 53 full-time equivalent (FTE) home visitors and 13 FTE supervisors. FTE can include full-time and part-time staff.

States provided data from their 2021 MIECHV federal report. Data represent families served through MIECHV-funded programs in fiscal year 2021. MIECHV State Data Tables include MIECHV data only. Numbers may vary from those in NHVRC State Profiles, which may include both MIECHV and non-MIECHV data provided by evidence-based models. • Caregivers include pregnant women, female caregivers, and male caregivers. • Caregivers and children with missing data were excluded from the calculations. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income at or below 100 percent of the federal poverty guidelines. • Counts of FTE home visitor and supervisor positions were rounded to the nearest whole number. • To protect confidentiality, race and ethnicity categories with 10 or fewer caregivers were replaced with *. • Percentages may not add to 100 due to rounding.

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation and previously was also provided by the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For a detailed methodology, see the 2022 *Home Visiting Yearbook*.
