

# ParentChild+

[ParentChild+](#), formerly called the Parent-Child Home Program, supports families with young children living in historically marginalized communities in accessing a path to possibility. ParentChild+ has an international network of program sites that work directly with families and family childcare providers to ensure children achieve their greatest potential in school and life. Highly trained, community-based early learning specialists (ELs) conduct visits with families and family childcare providers to facilitate reading, conversation, and play activities and quality caregiver-child interactions that support school readiness.

<p><b>What is the model's approach to providing home visiting services?</b></p>	<p>Home visits take place twice per week for a minimum of 46 weeks (92 visits total). ParentChild+ works with families when their children are between the ages of 16 months and 4 years old. Children typically enter the program at 2 years old and exit as they transition to pre-K or a Head Start center-based program.</p> <p>ParentChild+'s service population includes the following:</p> <ul style="list-style-type: none"> <li>✔ Families with low incomes</li> <li>✔ Families experiencing language or literacy barriers</li> <li>✔ Families experiencing social isolation</li> <li>✔ Caregivers with limited access to education</li> <li>✔ Immigrant/refugee families</li> <li>✔ Families experiencing housing insecurity</li> </ul>
<p><b>Who is implementing the model?</b></p>	<p><b>Home Visitors</b></p> <p>ParentChild+ was implemented by 575 community-based ELs in 2021. The model requires ELs to have educational, work, and/or life experience relevant to the work and their community; be fluent in their families' home languages; share a cultural/community background with their families; and to have lived or worked in the communities they serve. The maximum caseload requirement for ELs is 15 families.</p> <p><b>Supervisors</b></p> <p>ParentChild+ was implemented by 259 community-based site coordinators in 2021. The model recommends that community-based site coordinators have educational, work, and/or life experience relevant to the work and their community.</p>
<p><b>Where is the model implemented?</b></p>	<div style="display: flex; align-items: center;">  <div style="margin-left: 20px;"> <p>ParentChild+ operated in 148 local agencies across 16 states in 2021. ParentChild+ also operated outside the United States and its territories in Bermuda, Canada, Chile, Ireland, Singapore, and the United Kingdom in 2021.</p> </div> </div>

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation and previously was also provided by the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For a detailed methodology, see the *2022 Home Visiting Yearbook*.
