The NHVRC estimated the percentage of families who met the following priority criteria:

Of the 349,400 families who could benefit—

This profile includes participant data from the following evidence-based models: EHS, Family Spirit, HFA, MIHP, PAT, and SafeCare Augmented. • American Indian/Alaska Native pregnant women and families were identified by the race of mother or other primary caregiver and includes those who reported American Indian/Alaska Native alone or as one of multiple races. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women.

The NHVRC is led by James Bell Associates in partnership with the Urban Institute. Support is provided by the Heising-Simons Foundation and the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For details about the methodology, see the 2022 Home Visiting Yearbook.
