New Jersey

Families Served Through Evidence-Based Home Visiting in 2022

Models implemented in New Jersey included Early Head Start Home-Based Option, Family Connects, Healthy Families America, Home Instruction for Parents of Preschool Youngsters, Nurse-Family Partnership, and Parents as Teachers. Statewide, 57 local agencies operated at least one of these models.

NHVRC STATE PROFILES

New Jersey

Potential Beneficiaries in 2022

In New Jersey, there were 460,600 pregnant women and families with children under 6 years old not yet in kindergarten who could benefit from home visiting. These families included 613,200 children.

613,200 children

could benefit from home visiting

460,600 families

could benefit from home visiting

Of the 613,200 children who could benefit-

Infants	Toddlers	Preschoolers
<1 year	1-2 years	3-5 years
93,000	217,000	303,200
15%	35%	49%

Many home visiting services are geared toward particular subpopulations. The NHVRC estimated the percentage of families who could benefit in New Jersey who met the following priority criteria:

Of the 460,600 families who could benefit—

NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: EHS, Family Connects, HFA, HIPPY, NFP, and PAT. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women. • EHS data may be underreported. Data include EHS programs that provided home-based services only. EHS did not report home visits. Data for child insurance status were not included. • HFA data for private insurance includes other forms of health insurance. • PAT data for child insurance status and primary language were not included.

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation and previously was also provided by the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For a detailed methodology, see the 2023 Home Visiting Yearbook.
