

Tribal MIECHV Program

Families Served Through the Tribal Maternal, Infant, and Early Childhood Home Visiting Program in 2022

The Tribal Home Visiting Program, part of the Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV), provides home visiting services to American Indian or Alaska Native (AIAN) families and children in 22 tribal organizations across the country. Tribal organizations funded through MIECHV are located across the country in reservations, urban areas, and remote Alaskan villages. This program provides culturally responsive services while strengthening tribal capacity to support the health and well-being of AIAN families.

Tribal MIECHV Program

Families Served Through the Maternal, Infant, and Early Childhood Home Visiting Program in 2022

Models implemented with Tribal MIECHV funds included Family Spirit, Nurse-Family Partnership, Parents as Teachers, and Parent-Child Assistance Program. Nationwide, Tribal MIECHV funded 72 full-time equivalent (FTE) home visitors and 36 FTE supervisors. FTE can include full-time and part-time staff.

18,795

home visits provided

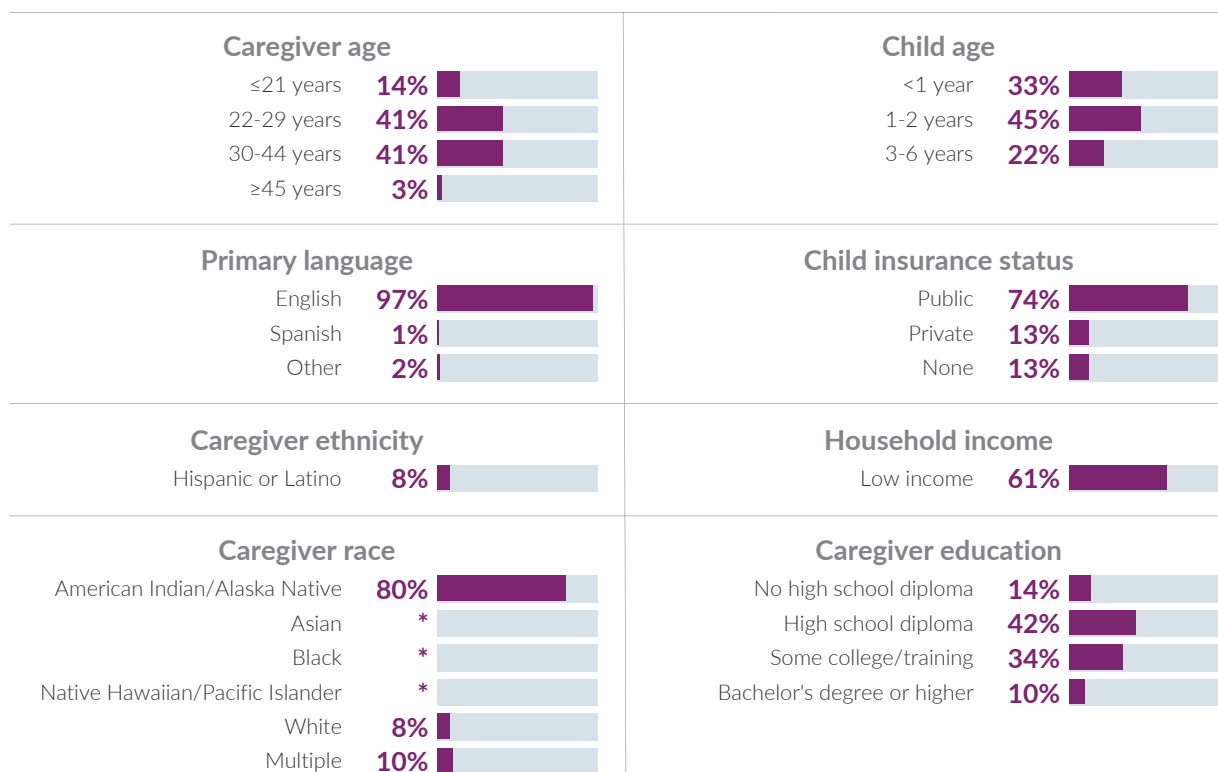

including 8,743 virtual visits

1,668

families served

1,691

children served

Data in this profile were provided by the Administration for Children and Families Tribal Home Visiting Program. • Grantees reported some data for new enrollees only. • Caregivers and children with missing data were excluded from the calculations. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income at or below 100 percent of the federal poverty guidelines. • Counts of FTE home visitor and supervisor positions were rounded to the nearest whole number. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Percentages may not add to 100 due to rounding. • Data include service numbers for Parent-Child Assistance Program, which is recognized by HRSA as a promising approach. • As a secondary language, 10% of children spoke a Native American language at home. • Among children without insurance coverage, 90% had access to Indian Health Service, Contract Health Service, or another Urban Indian Health Program facility.

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation and previously was also provided by the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For a detailed methodology, see the 2023 *Home Visiting Yearbook*.
