Potential Beneficiaries in 2022

Nationally, there were 378,100 American Indian and Alaska Native pregnant women and families with children under 6 years old not yet in kindergarten who could benefit from home visiting. These families included 481,700 children.

481,700
children

could benefit from home visiting

Of the 481,700 children who could benefit—

Infants <1 year	Toddlers 1-2 years	Preschoolers 3-5 years
-----------------	--------------------	------------------------

73,600 15%	166,600 35%	241,500 50%
-----------------------------	------------------------------	------------------------------

378,100
families

could benefit from home visiting

The NHVRC estimated the percentage of families who met the following priority criteria:

Of the 378,100 families who could benefit—

This profile includes participant data from the following evidence-based models: ABC, EHS, Family Spirit, HFA, MECSH, MIHP, PAT, and SafeCare Augmented. • American Indian and Alaska Native pregnant women and families were identified by the race of mother or other primary caregiver and includes those who reported American Indian and Alaska Native alone or as one of multiple races. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women.

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation and previously was also provided by the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For a detailed methodology, see the *2023 Home Visiting Yearbook*.
