Alabama

Potential Beneficiaries in 2023

In Alabama, there were 256,100 pregnant women and families with children under 6 years old not yet in kindergarten who could benefit from home visiting. These families included 338,900 children.

338,900
children

could benefit from home visiting

Of the 338,900 children who could benefit—

Infants <1 year	Toddlers 1-2 years	Preschoolers 3-5 years
54,800 16%	112,100 33%	172,000 51%

256,100
families

could benefit from home visiting

Many home visiting services are geared toward particular subpopulations. The NHVRC estimated the percentage of families who could benefit in Alabama who met the following priority criteria:

Of the 256,100 families who could benefit—

NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: HFA, HIPPI, NFP, and PAT. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women. • HFA data for private insurance include other forms of health insurance. • PAT data for child insurance status and primary language were not included.
