children

could benefit from home visiting

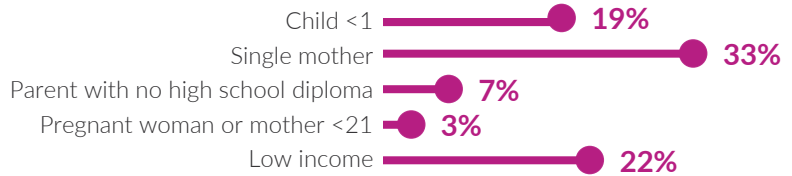

Of the 335,500 children who could benefit—

Infants <1 year	Toddlers 1-2 years	Preschoolers 3-5 years
53,200 16%	115,900 35%	166,400 50%

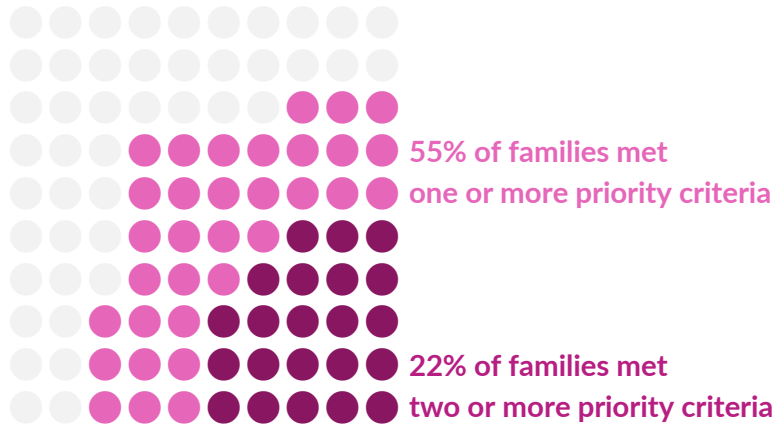

251,700
families

could benefit from home visiting

Many home visiting services are geared toward particular subpopulations. The NHVRC estimated the percentage of families who could benefit in Louisiana who met the following priority criteria:

Of the 251,700 families who could benefit—

NHVRC State Profiles present data provided by evidence-based models, which include both MIECHV and non-MIECHV data. This State Profile includes participant data from the following evidence-based models: Child First, Family Connects, HIPPI, NFP, and PAT. • Missing and unknown data were not included in calculations. • Percentages may not add to 100 due to rounding. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with *. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income below the federal poverty threshold. • Single mothers include single, never married mothers or pregnant women. • PAT data for child insurance status and primary language were not included.
