

# Tribal MIECHV Program

## Families Served Through the Tribal Maternal, Infant, and Early Childhood Home Visiting Program in 2023

The Tribal Home Visiting Program, part of the Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV), provides home visiting services to American Indian or Alaska Native (AIAN) families and children in 21 tribal organizations across the country. Tribal organizations funded through MIECHV are located across the country in reservations, urban areas, and remote Alaskan villages. This program provides culturally responsive services while strengthening tribal capacity to support the health and well-being of AIAN families.

For more detail about Tribal MIECHV-funded home visiting in these locations, please see the [Administration for Children and Families fact sheets](#).

# Tribal MIECHV Program

## Families Served Through the Maternal, Infant, and Early Childhood Home Visiting Program in 2023

Models implemented with Tribal MIECHV funds included Family Spirit, Nurse-Family Partnership, Parents as Teachers, and Parent-Child Assistance Program. Nationwide, Tribal MIECHV funded 71 full-time equivalent (FTE) home visitors and 31 FTE supervisors. FTE can include full-time and part-time staff.

**19,532**

home visits provided

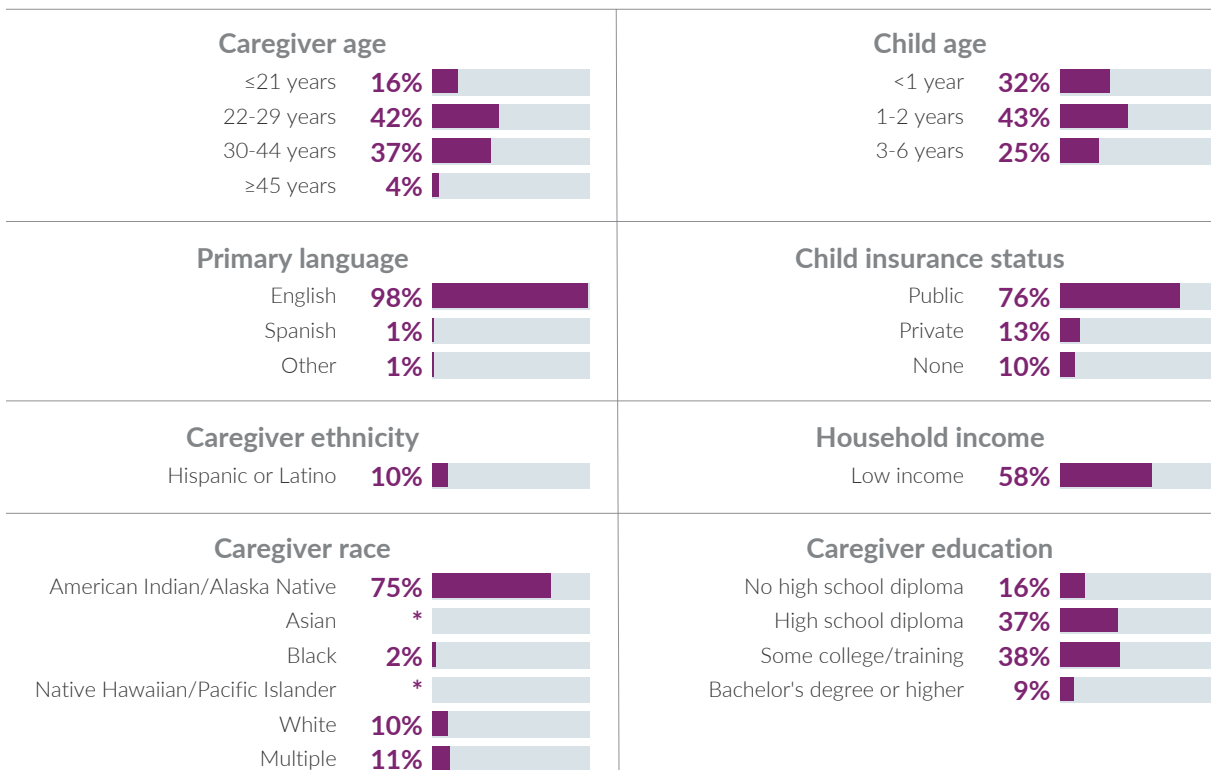

*including 4,629 virtual visits*

**1,644**

families served

**1,664**

children served

Data in this profile were provided by the Administration for Children and Families Tribal Home Visiting Program. • Grantees reported some data for new enrollees only. • Caregivers and children with missing data were excluded from the calculations. • Public insurance includes Medicaid, CHIP, and TRICARE. • Low income is defined as family income at or below 100 percent of the federal poverty guidelines. • Counts of FTE home visitor and supervisor positions were rounded to the nearest whole number. • To protect confidentiality, race and ethnicity categories with 10 or fewer participants were replaced with \*. • Percentages may not add to 100 due to rounding. • Data include service numbers for Parent-Child Assistance Program, which is recognized by HRSA as a promising approach. • As a secondary language, 10% of children spoke a Native American language at home. • Among children without insurance coverage, 90% had access to Indian Health Service, Contract Health Service, or another Urban Indian Health Program facility.

The NHVRC is a partnership of James Bell Associates and the Urban Institute. Support is provided by the Heising-Simons Foundation. The views expressed here do not necessarily reflect the views of the foundation. For a detailed methodology, see the *2024 Home Visiting Yearbook*.
