High school diploma/GED	41%
Some college/training	21%
Bachelor's degree or higher	9%

Household income	Percentage
Low income	83%

Approximately **1,500** home visitors delivered emerging model services nationwide in 2018

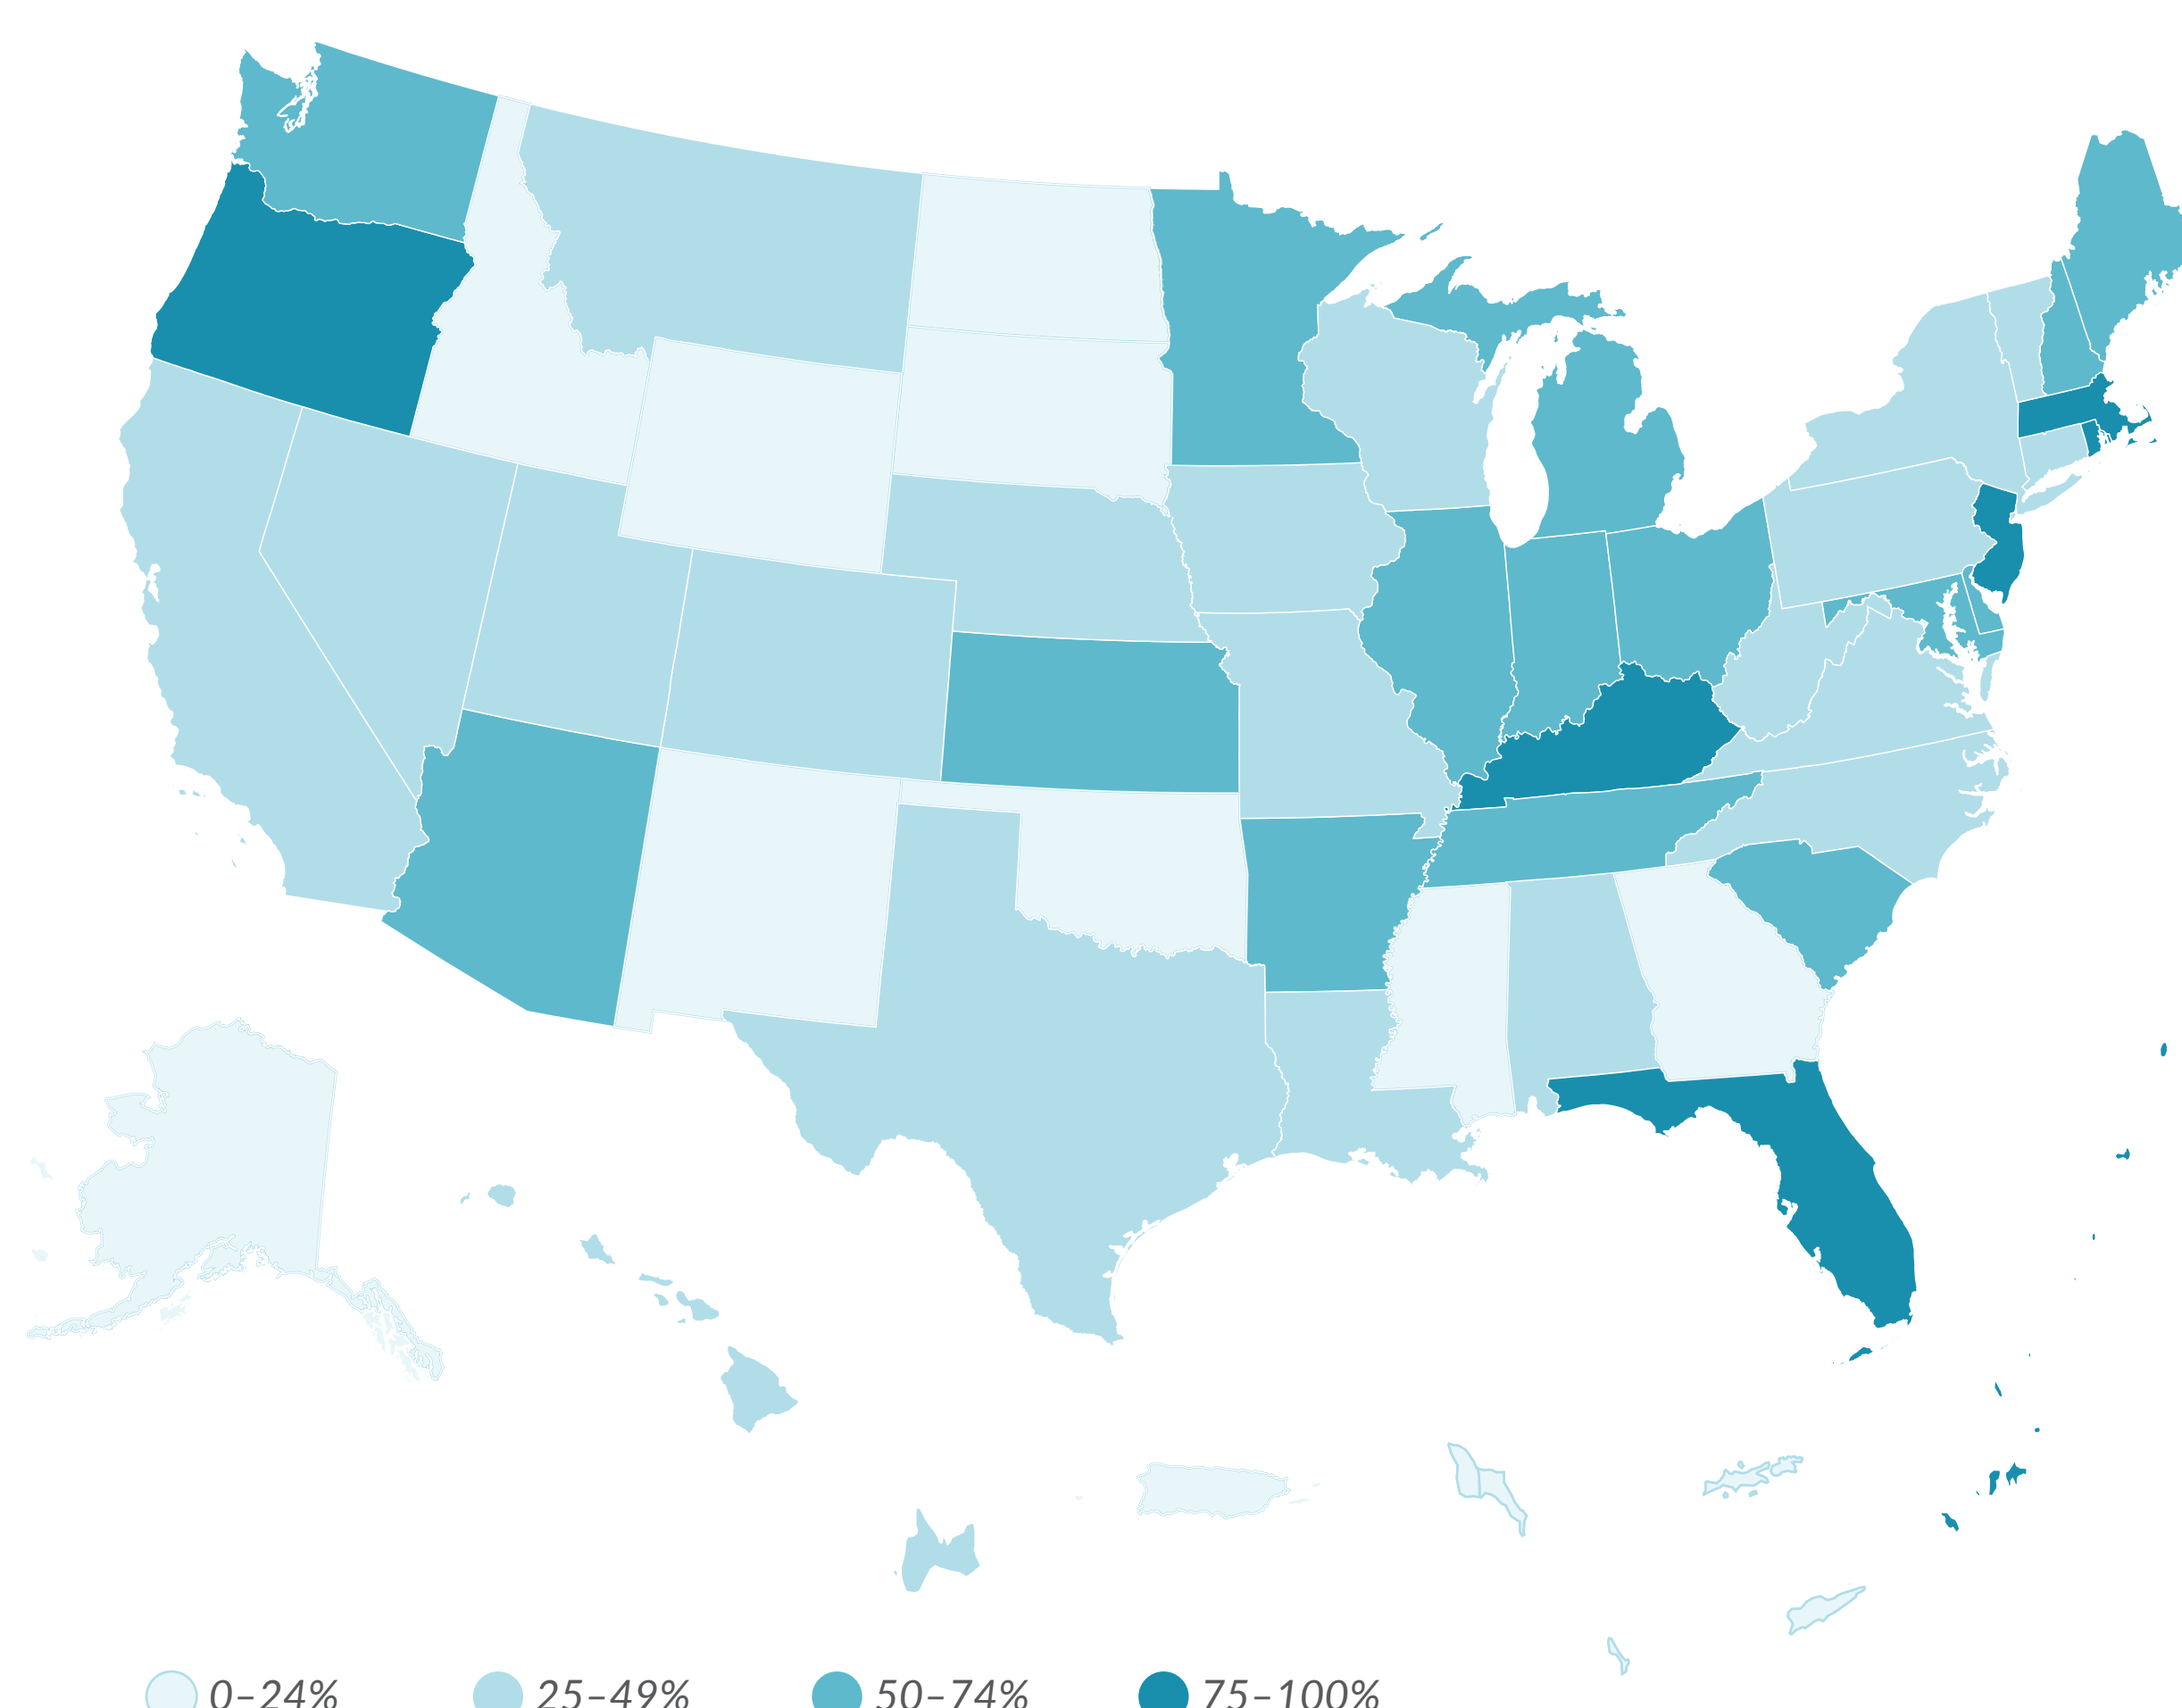

Where are home visiting programs located?

Counties With at Least One Local Agency Delivering Evidence-Based Home Visiting (2018)

Evidence-based home visiting programs operate in all 50 states, the District of Columbia, and 5 U.S. territories. In 2018, more than 3,000 local agencies delivered evidence-based home visiting. In 2018, 6 states and 1 territory served families in more than 75 percent of their zip codes. Evidence-based home visiting served approximately 47 percent of zip codes across the United States.

Percentage of Zip Codes in Which Families Receive Evidence-Based Home Visiting By State (2018)

Selected 2019 NHVRC Briefs

RESEARCH SNAPSHOT

Some home visiting programs coordinate services with pediatric primary care providers to reach more families and better meet their needs. This brief summarizes the existing research, to address four questions:

- Why should home visiting programs coordinate with pediatric primary care providers?
- What are common obstacles to service coordination?
- How can providers work around common obstacles?
- What are implications for practice and future research?

Suggested citation: Morrison, C., & Spear, M. (2019, July). Strengthening service coordination between home visitors and pediatric primary care providers. National Home Visiting Resource Center Research Snapshot Brief, Arlington, VA: James Bell Associates and the Urban Institute.

DATA IN ACTION

Our most recent Data in Action brief issued from the recently released 2019 Home Visiting Yearbook to explore the following questions:

- What percentage of potential beneficiaries and high-priority families are served by home visiting?
- How does the percentage of children served vary by child age?
- How does the percentage of unmet need vary by state?

We conclude with several suggestions for states and home visiting models.

INNOVATION ROUNDUP

Core competency frameworks provide shared language and expectations for the home visiting workforce by outlining the inherent "parts of the job." This brief highlights several efforts to develop core competency frameworks to support professional development and high-quality services:

- Oregon Home Visiting Core Competencies
- Pennsylvania Home Visitor Competencies for Home Visiting Professionals (PHVC)
- Institute for the Advancement of Family Support Professionals National Family Support Competency Framework

Suggested citation: Peters, R., & Serbin, H. (2019, September). Creating core competency frameworks for successful home visitors. National Home Visiting Resource Center Innovation Roundup Brief, Arlington, VA: James Bell Associates and the Urban Institute.
