

# Puerto Rico

## Families Served Through Evidence-Based Home Visiting in 2017

Models implemented in Puerto Rico included Early Head Start Home-Based Option and Healthy Families America. Across the territory, eight local agencies operated at least one of these models.

**2,408**

home visits provided

**130**

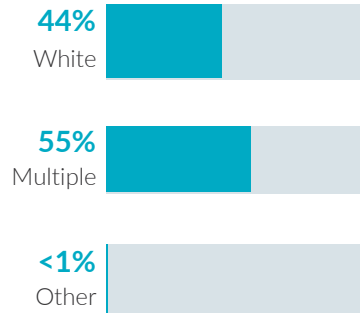

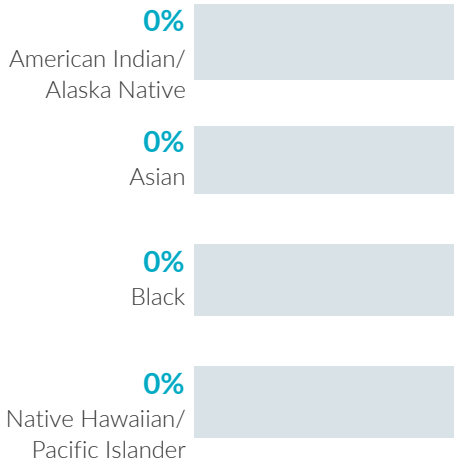

families served

**125**

children served

### Race

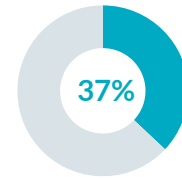

### Ethnicity

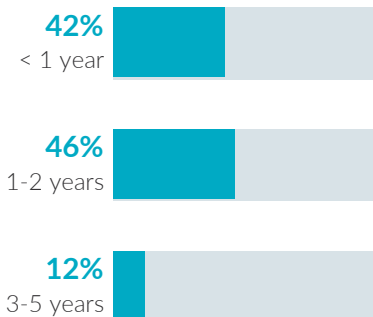

100%  
Hispanic or Latino

### Caregiver education

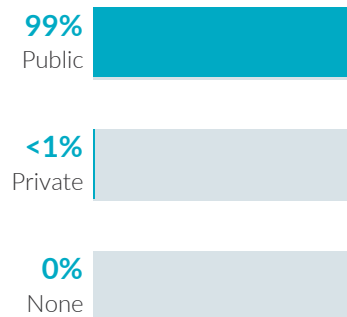

37%  
No high school diploma

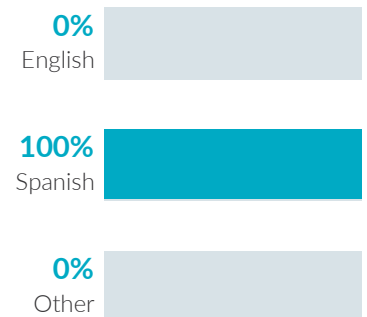

### Child age

### Child insurance status

### Primary language

# Puerto Rico

## Potential Beneficiaries in 2017

Information on potential beneficiaries was not available for Puerto Rico in 2017.

Notes • Percentages may not add up to 100 due to rounding. • Public insurance includes Medicaid, CHIP, and TRICARE. • To protect confidentiality, race categories with fewer than five participants were combined with "Other" race. • EHS programs in PR include a combination of center-based and home-based services. EHS data are not included because home-based service data cannot be isolated from statewide data. • HFA reports primary language of caregivers.

The NHVRC is led by James Bell Associates in partnership with the Urban Institute. Support is provided by the Heising-Simons Foundation and the Robert Wood Johnson Foundation. The views expressed here do not necessarily reflect the views of the foundations. For details about the methodology, see the *2018 Home Visiting Yearbook*.
