

Nurse-Family Partnership

Nurse-Family Partnership seeks to improve participants' lives in three key areas: pregnancy outcomes (by helping women improve prenatal health), child health and development (by helping parents provide sensitive and competent caregiving), and parents' life trajectories (by helping them develop a vision for their future, plan subsequent pregnancies, continue their education, and find work). See www.nursefamilypartnership.org for details.

<p>What is the model's approach to providing home visiting services?</p>	<p>Home visits take place based on a family's level of need and a child's age. Services are provided until the child's second birthday. Nurse-Family Partnership requires families to initiate services prenatally by the 28th week of pregnancy.</p> <p>Nurse-Family Partnership's target population includes the following:</p> <ul style="list-style-type: none">  Expectant mothers  Low-income or low-resource families  First-time mothers
<p>Who is implementing the model?</p>	<p>Home Visitors</p> <p>Nurse-Family Partnership was implemented by 2,064 home visitors in 2018. The model requires a bachelor's degree in nursing for home visitors. The minimum caseload requirement for home visitors is 25 families.</p> <p>Supervisors</p> <p>Nurse-Family Partnership was implemented by 319 supervisors in 2018. The model requires a bachelor's degree in nursing for supervisors; a master's degree in nursing is recommended.</p>
<p>Where is the model implemented?</p>	<div style="display: flex; align-items: center;">  <div style="margin-left: 20px;"> <p>Nurse-Family Partnership operated in 312 local agencies across 42 states and the Virgin Islands in 2018.</p> </div> </div>
