

SafeCare/SafeCare Augmented

SafeCare/SafeCare Augmented (SafeCare) aims to prevent child neglect and physical abuse. The model is designed to improve positive parenting skills so that all parents can provide a nurturing, safe, and healthy home environment for children. The curriculum focuses on three key areas: positive parent-child interaction, child health, and home safety. See www.safecare.org for details.

<p>What is the model's approach to providing home visiting services?</p>	<p>SafeCare is delivered across 18 weekly home visits, which typically last 60 minutes each. SafeCare can be delivered to any family with a child between the ages of birth and 5 years old, with no other inclusion or exclusion family characteristics necessary for enrollment.</p>
<p>Who is implementing the model?</p>	<p>Home Visitors</p> <p>SafeCare was implemented by 542 providers in 2018. The model requires a high school diploma and experience in child development for providers; a bachelor's degree is recommended. Provider caseload limits are determined by local programs.</p> <p>Supervisors</p> <p>SafeCare Coaches complete a certification process, which includes attending the home visitor training and an additional two-day workshop focused on fidelity monitoring and supportive coaching. A half-day training is available for supervisors and/or administrators who do not deliver the SafeCare program to families, but need more detailed information about the curriculum to effectively support implementation.</p>
<p>Where is the model implemented?</p>	<div style="display: flex; align-items: center;">  <div style="margin-left: 20px;"> <p>SafeCare operated in 112 local agencies across 18 states in 2018. SafeCare also operated outside the United States and its territories in Australia, Canada, Israel, Spain, Taiwan, and the United Kingdom in 2018.</p> </div> </div>
